Course Description

Designed for endocrinologists and interested internists and surgeons, the Fifteenth Mayo Clinic Endocrine Course will address gaps in medical knowledge and barriers in clinical practice in order to improve the outcomes of patients with endocrine and metabolic disorders. This 5-day course will span the full spectrum of endocrinology through lectures, debates, panel discussions, clinicopathologic sessions, “clinical pearls” sessions, informal breakfast round table discussions, and small group discussions with experts. There will be plenty of opportunity for interaction with the course faculty who are selected from Mayo Clinic for their expertise and clinical acumen. An optional thyroid ultrasound course will also be offered.

Additional Information

A detailed course brochure will be available online October 2011.
